

5 Gallon Bottled Water Limitations

- **High Cost-** over \$1.00 and above per gallon for filtered tap water
- **Contaminated Water-** a breeding ground for viruses and bacteria from people handling bottles and bottle cooler designs
- Bottle Storage and **excess office clutter**
- Lifting of 42lb bottles- opportunity for **workers compensation claims**
- Over 70% of 5 gallon bottles plastic are made with **(BPA)Bisphenol A** which has proven to release poisonous chemicals
- Maintenance- changing of bottles and disinfecting of cooler
- Lacks sanitization, nutrient and antioxidant replenishment
- Poor budget control- the more you drink the more you pay
- Delivery inconveniences and security issues
- Running out of water during peak times

Wellsys Purification Systems Advantages Over Bottled Water

Feature	Benefit
Eliminates Lifting 42lb Bottles	Safety
Reduces Workers Compensation Risk	Safety / Cost Savings
Eliminates Airborne & Human Contaminates	Health
Eliminates Cost Increases- Consumption	Cost Savings
Eliminates Bottle Deliveries	Convenience / Security
Eliminates Running Out of Water	Convenience
No More Bottle Deposits	Cost Savings
No Plastic Bottles	Health / Environmental
